

THE LATEST IN TECHNOLOGY FROM MEDICAL CENTER OF SOUTH ARKANSAS

Digital Mammography

Now, you can have all the advantages of digital mammography without leaving town. MCSA is the first in the area to bring you this advanced technology, which provides clearer images and faster results. Furthermore, all results are read by a group of skilled radiologists. Why would you need to go anywhere else?

Why Digital Mammography?

Digital technology greatly enhances our ability to detect abnormal growths even in the early stages of development. Computer-aided detection (CAD) software is also used as an additional support. It automatically detects abnormalities on an image, highlighting them for clinicians. This technology greatly reduces missed breast cancers.

The digital mammography department at Medical Center of South Arkansas is accredited with the American College of Radiology ensuring that we meet the top standards of care.

Who needs a mammogram?

A screening mammogram can help detect breast cancer in its earliest, most treatable stages. The American Cancer Society recommends annual for women 40 and older, individuals with serious health problems defined by a physician and for younger women considered to be at risk.

How do I obtain further information about Digital Mammography, or schedule an appointment?

Further information about Digital Mammography, including ways to prepare for the examination, can be obtained by logging on to <http://www.radiologyinfo.org>. To schedule your Digital Mammogram, please call 870-875-6215 today, or ask your physician to schedule you directly from their clinic. Don't wait, early detection is key!

How can I learn more about healthcare options and/or imaging options available at Medical Center of South Arkansas?

There is never a need for you or your loved ones to go anywhere else for your comprehensive diagnostic study needs. If you would like to request further information, or have a question about MCSA diagnostic/imaging study offerings or any other local quality healthcare options, please contact **Rachel Scriber, MCSA Director of Marketing**, by calling **870-863-3245**, or log on to www.themedcenter.net.

MCSA-providing quality healthcare services to El Dorado and surrounding communities since 1921.
