

Dr. Janice Brooks - MCSA & SACC Feature Local Artists - Marketing Awards - Team Member of the Month

## Interventional Radiologist Dr. Janice Brooks

### ***Dr. Brooks Featured in Southern Style Magazine***

You may not often see Dr. Brooks in the halls or a patient's room. As an interventional radiologist, her domain is the radiology department where she takes care of our patients' health by providing minimally invasive image-guided diagnosis and treatment of diseases in every organ system.

Dr. Brooks was interviewed recently about breast cancer screenings and how mammograms and diagnostic imaging is an important first step in the fight against breast cancer.

Although the range of procedures performed by Dr. Brooks is broad, the unifying concept is

the use of the most modern, least invasive technique available in order to minimize risk to the patient and improve health outcomes. [Read Dr. Brook's interview...](#)

## MCSA & SACC Partner to Feature Local Artists

Through a partnership with South Arkansas Arts Center, MCSA hosts artist Amy Machen with her show "The Mind of Machen" at the MCSA Bistro & Cafe.

Amy's show is bright, colorful and full of joy. She uses acrylics on canvas for most of her offerings, but also paints on textiles, showcasing a few pieces in her show as well. She loves abstracts but also paints flowers, angels and ocean scenes.

Enjoy Amy's work through November 15. [Read more about South Arkansas Arts Center \(SAAC\)](#)

## Team Member of the Month

L-R: Amy Triplet, CNO, Taylor Walters, LPN, Jim Bob Jameson, Director of 3rd Floor

### *Taylor Walters Recognized for Team Support and Dedication*

Congratulations to Taylor Walters, LPN, selected Team Member of the Month. HR Director LaKeitha Davis presented the recognition saying Taylor was nominated for being a driven and dedicated Team Member who strives to take the Best Care of their patients.

Fellow nurses and staff say Taylor is someone they know they can always count on when they need support.

## Team Member Health Fair

Flu shots. Hernia screenings. Skin checks. Cholesterol and Glucose tests. Diabetes and Wound Care. Imaging and Mammogram education, Stroke and Heart Attack score cards and even Mini Memory tests. The Team Members of MCSA woke up today a bit healthier and more health-aware after yesterday. Health and wellness begins with preventive care and education and the health fair provided both...with a little chocolate and a chair massage to help the sting of doing the right thing and getting your flu shot early. Thanks to the all the departments who made it possible! Corey Sharp reports 279 people had their flu shots. If you were unable to attend, please make an appointment with Corey ext 3500.

Thanks to Dr. Kirsten McKnight, Kinslow Eye & Laser Center; SPA ON MAIN; UAMS /South Arkansas Center on Aging; and South Point Medical Dermatology for participating and supporting our Team Members and their good health!
